

Quality Assurance Tester for Vehicle Mounted Access Platforms (MEWPS)

Job Description

We are looking for QA Tester and Setter to join the company and support the department in fast growing business based in Kettering, Northamptonshire.

You should be able to work well alone, using your own initiative but ensuring communication is kept with the Quality and Production departments.

Key Responsibilities:

- Inspecting platform & vehicle components for compliance to the required standards.
- Submit completed inspection statements.
- Testing platform & vehicle components using mechanical and/or electrical devices.
- Provide technical reports of findings in the field with emphasis on the critical ones which you will address with the management team.
- Work outdoors in all weather conditions.
- Work at heights, typically 15m to 20m.
- Ensures the functional and acceptable status of the test equipment in accordance with the appropriate company process.
- Inspects and interprets the test results.

Requirements and skills:

- Automation Integration experience with MEWP's is an advantage.

- Preferably with IPAF certification, 1a, 1b, 1b+, 3a, 3a+, 3b, 3b+ however, training will be provided if necessary.
- Cross trains in other complementary skills and seeks endorsements for those skills as needed to support company requirements.
- Responsible for observing all applicable safety requirements and reporting immediately any unsafe practices/conditions.
- Knowledgeable in the Workplace Health & Safety requirements.
- Proficient in technical thinking.
- Basic computer skills.
- High energy, dynamic individual who strives for continuous improvement.
- Attention to detail with high compliance.

Working Hours: Monday – Thursday 7.30am to 16.30pm and Friday 7.30am – 13.30pm (40 hours)

Benefits: Training, a pension scheme, free parking, uniform, 20 days holiday plus BH, access to the onsite canteen, good local services/amenities, career progression opportunities and regular staff events!
