Cumberland Platforms Ltd are the UK's leading designer, manufacturer and supplier of Vehicle Mounted Access Platforms.

We are part of the KLUBB Group and Distributors/Service Partners for Isoli and Palfinger.

Tracked, Trailer Mounted and Self-Propelled Platforms from Almacrawler and Dinolift complete our portfolio.

Role:

We are recruiting engineers who have hydraulic, mechanical and electrical knowledge/experience/skills from an automotive and/or plant background that can repair and service access platforms.

Key Responsibilities:

- Undertake all work requirements in accordance with instructions
- Complete work and tasks in a timely and professional manner
- Ensure the quality of work is in accordance with the Company standards
- Take responsibility for all work produced
- Ensure specified targets are met and advise line manager of any associated issues in a timely manner
- Dispose of all waste products in accordance with Company guidelines
- Be pro-active in recommending ways of improving efficiency and quality
- Ensure correct tooling and materials are used on all jobs
- Ensure all documents including job reports are completed daily
- Ensure all hours worked are allocated to the correct job
- Promote a safe, healthy and environmentally friendly workplace by observing and adhering to the Companies Health & Safety Policies and other associated accreditations/regulations.

Person Specification:

- ✓ Demonstratable experience with hydraulic, mechanical and electrical knowledge.
- ✓ Calm, methodical, positive and pro-active approach to tasks
- ✓ Steady and compliant
- ✓ Self- motivator with attention to detail
- ✓ Excellent communication skills, verbal and written
- ✓ Ability to understand and interpret technical drawings and instructions
- ✓ Proficiency and accuracy in completion of job reports
- ✓ Ability to prioritise with excellent organisational skills
- ✓ Be prepared to undergo in-house/external training on all platforms

Qualifications:

- ❖ Advanced Technical Qualification or Time Served
- ❖ IPAF 1A, 1B, 1B+, 3A & 3B are preferred or training provided
- ❖ Valid CAP Certification or training provided
- ❖ Aware and Compliant with Working at Height Regulations
- ❖ Full, Clean Driving Licence preferred
- ❖ NPORS N104 Overhead Gantry Crane or training provided
